

****How to Add and Display your CNFTG Token ****

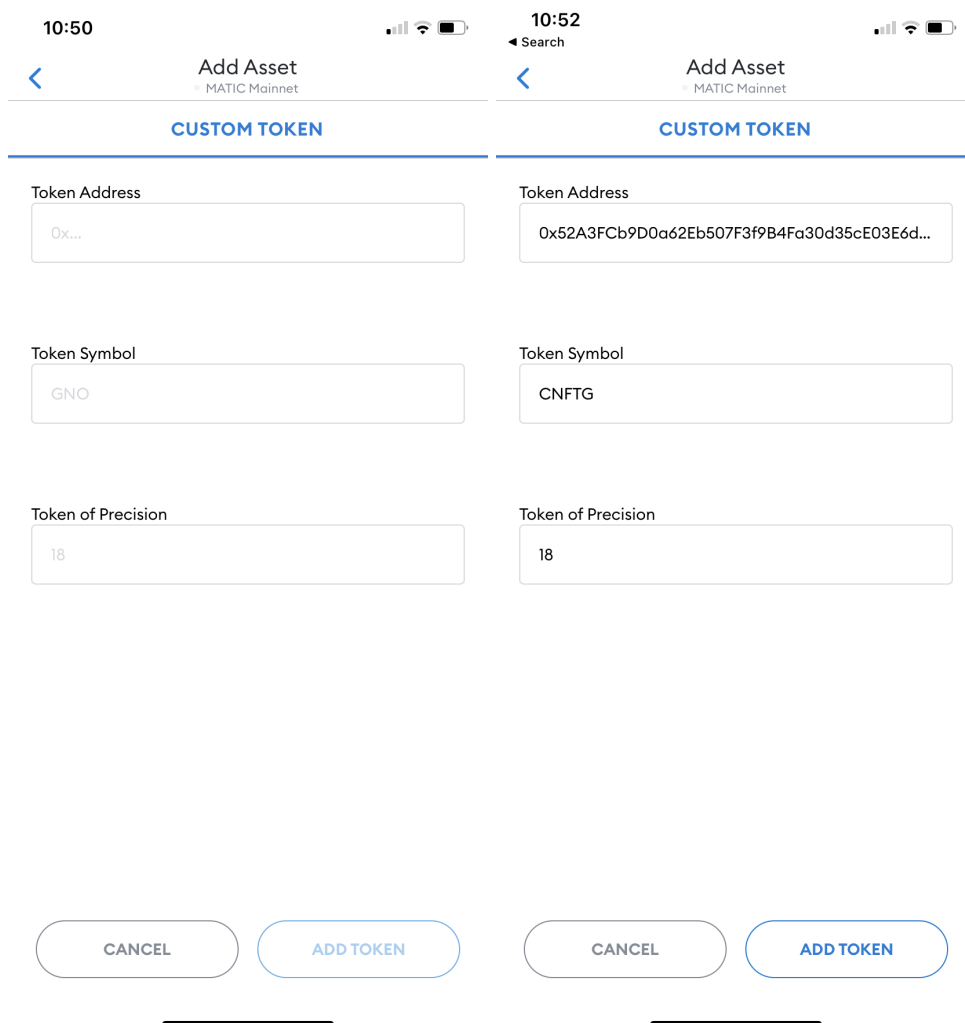

1. Click “+ Add Tokens”

2. Enter Contract Address below in the “Token Address” field:

0x52A3FCb9D0a62Eb507F3f9B4Fa30d35cE03E6df8

If entered correctly, Token Symbol and Token Precision will be automatically shown:

3. Now click “Add Token”

The screenshot shows a mobile application interface for adding a custom token. At the top, the time is 10:52, and there are icons for search, signal strength, Wi-Fi, and battery. The title bar reads "Add Asset" with "MATIC Mainnet" below it. A blue back arrow is on the left. Below the title bar, the text "CUSTOM TOKEN" is centered. There are three input fields: "Token Address" containing "0x52A3FCb9D0a62Eb507F3f9B4Fa30d35cE03E6d...", "Token Symbol" containing "CNFTG", and "Token of Precision" containing "18". At the bottom, there are two buttons: "CANCEL" and "ADD TOKEN".
